Participation Grade

Your participation grade is based on the timely completion of the following tasks:

Participation #1: Introduce yourself to the class using Blackboard or Piazza. Respond to at least one other person.

Participation #2: Make a team of 2-3 people and setup team environment. Inform the teacher about the team. If you prefer to work individually, email the teacher of your intent and rationale.

Participation #3: Schedule at least one meeting with the teacher to review Platform Independent Model designs before the deadline.

Participation #4: Schedule at least one meeting with the teacher to review Platform Specific Model designs before the deadline.

Participation #5: Participate in at least five interactive class sessions throughout the semester. Keep track of which class sessions you participated in and let the teacher know before the last class of the semester.
